

## Salem Preschool's Science Enrichment Program For children ages 4-6

Have you ever wanted to perform your own science experiments? Here's your chance! We'll explore chemistry and physics in a very hands-on (MESSY!) way.

You may have played with slime before, but have you ever seen a flying teabag?

Join us in Mad Scientist II as we break out the beakers. Then be sure to join us in Mad Scientist III, for a whole different experience of oozing and erupting concoctions!

Classes will include discussion, exploration, science projects and experiments. Don't miss it!

Snacks will be provided daily.
